Further information:

betoni@betoni.com

Betoni is a magazine that introduces widely concrete architecture and structures, environmental and infrastructure construction, the latest information on concrete construction, research and development projects and the most interesting references from Finland and abroad. The magazine also presents the latest concrete art and design.

The features and news covered in the Magazine build up the development picture of concrete architecture and technology as well as industrial construction, both in Finland and on the international scene. Standing columns include the technical columns and training programs organized by Concrete Industry Ltd. Betoni Magazine also serves as a communication tool providing information on various events in the industry.

The Magazine is designed for developers, designers and builders in the construction trade, as well as for public employees and professionals working in business and industry. Betoni Magazine is also distributed to various research and educational institutes.

Betoni Magazine was founded in 1930. It comes out four times a year, with 96-120 pages in each issue.

Annual subscription fee: 56 € + vat (10 %).

Retail cover price: 15 € + vat (10 %).
